EXPERIENCE

Web Developer   09/2023 - 10/2023

Freelancer   Work From Home

I work on one project through freelancing in which I worked on React Js, AG GRID, API and many more. There I added a lot of features like through API display tables. And also learn time management.

PROJECTS

Singh Tour

This website is for gather the details of different places. Things are organized affectively. And all the details is through self-created API. And there is also great functionality of Login, Sign Up and also Forget Password through Email.
- **Skill Used** :- HTML, CSS, JS, Node Js, MongooDB, Express Js
🔗 https://singhtour.netlify.app/
